AZ Bk impress
by size

Site is 3 structures on land; one structure includes
major round surface. Another is rectangular, perhaps
even square, is tall & wide. Another is small solid
(compact) grey; there are tall vertical extension, suggesting
an ALC 2 antennae or radio towers, etc.

AOL BLC
radio antenna

Tall rectangular structure house apparent highly
technical research/development activity involving complex
electronic equipment & perhaps perhaps involving
bio-electronic experiments of some sort with
people not there voluntarily.
